

OFCP - A Member of Neurological Health Charities Canada

Working together to improve the lives of people living with chronic neurological disease, disorders, conditions and injuries in Canada

The Ontario Federation for Cerebral Palsy is a member of Neurological Health Charities Canada. The Neurological Health Charities Canada (NHCC) is a collective of organizations that represent people with chronic, often progressive, neurological and/or neuromuscular diseases, disorders, conditions and injuries in Canada. NHCC's role is to provide leadership in evaluating and advancing new opportunities for collaboration specific to advocacy, education and research projects, related to brain health.

NHCC Members are: ALS Society of Canada, Alzheimer Society of Canada, Canadian Neurological Sciences Federation, Epilepsy Ontario, Huntington Society of Canada, March of Dimes, Mood Disorders Society of Canada, Multiple Sclerosis Society of Canada, Muscular Dystrophy Canada, NeuroScience Canada, Ontario Federation for Cerebral Palsy, Ontario Neurotrauma Foundation, Parkinson Society Canada, Spina Bifida and Hydrocephalus Association of Ontario, Tourette Syndrome Foundation of Canada.

or read the [NHCC fact sheet](#)

Cerebral Palsy (CP) affects an estimated 60,000 Canadians. CP is a term used to describe a group of disorders affecting body movement and muscle co_ordination. The medical definition of cerebral palsy is a "non_progressive" but not unchanging disorder of movement and/or posture, due to an insult to or anomaly of the developing brain.

The Ontario Federation for Cerebral Palsy is committed to supporting the most advanced and highest quality of Cerebral Palsy research, including the cure, cause, prevention, improved treatment and/or understanding of cerebral palsy.
